We recommend the planting of the large trees

They grow off better and bear quicker.

VARIETIES

ODOM, STUART, MONEYSMAKER, SABINE & SUCCESS

The finest Paper-Shell Pecan trees grown

Plant some of each variety in your orchard

It has been our experience that it pays to plant as many as four or five varieties in each orchard. Each variety gets the benefit of all the other varieties from their bloom for pollenization. And another very important thing is that in case one variety fails to bear any one year, the others will, and you always have plenty of fine Pecans.
